Life Safety Equipment installed without plans	\$ 250.00	
Occupying a structure without Certificate of Occupancy	\$ 250.00	each day

- 1) The building or structure shall not be occupied prior to the fire code official issuing a permit and conducting associated inspections indicating the applicable provisions of this code had been met, also includes change of occupancy.
- 2) All issued permits shall be kept on the premises designated therein at all times and shall be readily available for inspection.
- 3) Permits may be revoked for reasons as listed in the Lincoln County FPAPD and NC SBCFPC.

LC FPAPD-Lincoln County Fire Prevention and Protection Ordinance; NC SBCFPC- North Carolina State Building Code Fire Prevention Code

A delinquency charge shall be imposed at a rate determined by the fire code official for failure of payment based on provisions set for in the Fire Protection Ordinance.

All permits registered under the False Alarm Ordinance shall be renewed annually.

System installation prior to plan review or permit issuance will result in double fees.

Footnotes:

- 1) For multi-occupancy buildings, other than residential or institutional, fees are per occupancy.
- 2) For single buildings where there are more than four occupancies, all occupants agree to a continuing inspection date, and a single invoice is paid through the building owner(s) or agent, a 33.3% discount on the first inspection fee is available. No discounts are available on re-inspections due to non-compliance.
- 3) For multiple buildings owned by the same owner(s), the fees are per building as defined by the NC State Building Code.
- 4) Subsequent re-inspections beyond the second re-inspection with violations not cleared will result in doubled fees with each necessary re-inspection of continuing violations, with no fee cap.
- 5) High-rise buildings shall be assessed a fee for the common use areas per section C5.
- 6) Inspections will match the State mandated minimum inspection frequency. The Fire Chief can authorize a specific occupancy classification to be inspected more frequently, but not less frequently.
- 7) At the time of the periodic inspection for the occupancy or premise operation, if an operational permit is required, that permit fee is included with the periodic inspection fee for that permit type.
- 8) Occupancies that are current with the fire inspection fees as outlined above are not charged staff time for staff fire safety training. Occupancies that are not current or not covered by the above fee schedule will be charged according to the hourly rate fee schedule for staff fire safety training.
- 9) Lincoln County schools are inspected every six months, as required by state statute.
- 10) Premises, complexes, and/or uses that are not covered by the above fee schedule will be charged according to the hourly rate fee schedule for the specialist rank.

- 11) Large assembly occupancies used primarily for worship and that are not used for exhibition or display purposes are inspected on a 36 month schedule regardless of occupant load, in accordance with the North Carolina State Fire Code.
- 12) Parking garages, greenhouses, sheds, stables, tanks, and towers will be charged according to the hourly rate fee schedule for the specialist rank.
- 13) Accessory buildings, such as clubhouses, maintenance sheds, etc., are inspected independently based on their occupancy type.
- 14) Charges for standby personnel and/or equipment shall be charged per section F and G. Permits that are fee exempt or pay a reduced rate are also exempt or pay a reduced fee for these services.
- 15) The following are exempt from inspection fees: Public and Charter schools, County operated buildings, and Emergency Service buildings. (No exception of other fees.)
- 16) Certain fees may be waived at the discretion of the Fire Marshal on an individual basis.
