Date: March 13, 2020  

Re: CUP #417  
Mount Zion Baptist Church, applicant  
Parcel ID# 55396  

The following information is for use by the Lincoln County Board of Commissioners and Planning Board at their joint meeting/public hearing on April 6, 2020.  

REQUEST  

The applicant is requesting a conditional use permit to allow the use of a private recreational facility, a lighted ballfield, in the R-R (Rural Residential) district. Under the Unified Development Ordinance, private (that is, privately owned) recreational facilities are permitted in the R-R district subject to the issuance of a conditional use permit.  

In the church’s application, as part of its proposed findings of fact, the following conditions are proposed:  

1) Two rows of Leyland cypresses, 2-4 feet tall at time of planting, shall be planted eight feet apart on 10-foot staggered centers along the shared property line between the house on the adjoining property and the ballfield, starting at the corner past the view of the ballfield from the house and crossing the entire field of view.  

2) Along the remainder of the shared property line, pine trees shall be planted in rows 10 feet apart with trees 12 feet apart.  

3) The ballfield shall not be used for commercial purposes.  

4) Lights shall be shut off by 10 p.m.  

BACKGROUND  

Lighting poles and field lights were installed on an existing ballfield at the church last June under an electrical permit that was issued without a review for zoning compliance. After the permit was issued, a church leader inquired about whether there were any lighting or noise ordinances that the church should be aware of. Around the same time, the owner of an adjoining property questioned the installation of lights. The church leader
was advised that a conditional use permit was required if the church wanted to use a lighted ballfield for league play or allow other groups to use the lighted field.

SITE AREA AND DESCRIPTION

The 16.1-acre site of the church and ballfield is located at 2151 Mount Zion Church Road in Ironton Township. It is adjoined by property zoned R-R and R-SF (Residential-Single Family). Land uses in this area included residential and agricultural. This property is part of an area designated by the Lincoln County Land Use Plan as Large Lot Residential, suitable for primarily single-family homes, with a church, community center, and a pool and amenities listed among secondary land uses.

Briefly describe how the property is being used and any existing structures

Mount Zion Baptist Church, established in 1869, is situated on 16 acres of land on Mount Zion Church Road in Alexis (Parcel 55396). The parcel is zoned Rural Residential and Residential Single Family. The campus includes a number of buildings: a sanctuary building with classrooms, a chapel building with classrooms, a family life center, a youth hut, and a picnic arbor. A ballfield was constructed a number of years ago on the southern corner of the property, but has been used only infrequently due to the difficulty in accessing the field.

Briefly explain the proposed use and/or structure which would require a Conditional Use Permit

Because of a generous gift of one of our members, the church has an opportunity to make the facility usable for ministry with concrete steps with handrails, bleachers, and dugout, a Bermuda grass outfield, an irrigation system, and professionally installed lights. It is the addition of the lights that establish the need for a Conditional Use Permit.

Proposed Findings of Fact

1. The use will not materially endanger the public health or safety if located where proposed and developed according to plan. _X_ Yes  _No
   Factual Reasons Cited: The ballfield is located in the corner of the church's property approximately 1000 feet from Mount Zion Church Road and includes ample parking. When the church built the family life center, it included restrooms that are accessed from the outside for use by those using the ballfield. Traffic from use of the ballfield will be similar to the traffic associated with church services which has not been a problem. Therefore, the ballfield will not materially endanger the public health or safety of the community.

2. The use meets all required conditions and specifications. _X_ Yes  _No
   Factual Reasons Cited: The ballfield has obtained all necessary permits for the construction of the ballfield. There are no additional conditions and specifications associated with the lighted ballfield.

3. The use will not substantially injure the value of adjoining or abutting property unless the use is a public necessity. _X_ Yes  _No
   Factual Reasons Cited: The church was established 150 years ago. In the intervening years, houses have been built near the church. The current value of the adjacent property has already taken into consideration the location of the church. The ballfield will be within view of one house (parcel 79391, owners Heath and Tracie Jenkins).

To mitigate any impact on these neighbors, the church commits to plant two rows
of Leland Cypress trees, eight feet apart, on ten foot staggered centers along the shared property line between the house and the ballfield, beginning in the corner past the Jenkins' view of the ballfield and crossing the entire field of view of the ballfield. The church will give the Jenkins the option of having these trees planted on their property at a location of their choice. The trees will be two to four feet high at the time of planting. Normal growth rate for Leland Cypress is over two feet per year. The mature height of these trees is sixty feet.

In addition, the church commits to plant the property between the Jenkins property and the ballfield and the family life center in pine trees in rows ten feet apart with trees twelve feet apart. These trees will reach a mature height of 60 to 100 feet, growing at a rate of one to two feet per year. The pine trees will provide a long-lived barrier between the Jenkins’ property and the church’s property.

In addition, the church commits that the field will be not used for commercial purposes. The anticipated use for the ballfield is for our church to field sports teams such as softball and soccer and would include activities such as league games and sports clinics. Most activities would take place during daylight hours. For later activities, the church commits to extinguish lights by 10 PM.

The church voted in a business meeting on October 27th, 2019, to approve these commitments.

4. The location and character of use, if developed according to the plan as submitted and approved, will be in harmony with the area in which it is to be located and will be in general conformity with the Land Use Plan for the area in question. ___ X ___ Yes ___ No
Factual Reasons Cited: Mount Zion Baptist Church has been a central part of the adjacent community for 150 years. The church's mission is to show God's love and meet the spiritual needs of the families in the community. The ballfield is part of that mission with the additional benefit of supporting the physical wellness of the community. The community will benefit from the facilities.
