

LINCOLN COUNTY  
RESIDENTIAL CONSTRUCTION & DEMOLITION INFORMATION  
FOR CONVENIENCE SITES  
**SOLID WASTE**

**Residential Only C&D at Convenience Sites LINCOLN COUNTY –**

*Effective December 2, 2014*

Construction & Demolition - C&D

**Some** Construction & Demolition Waste is accepted at the convenience sites from the homes of Lincoln County residents.

Any C&D that is from a contracted job, business, or rental property must go to the main landfill and will be charged per ton. **Businesses, contractors, or contracted jobs are not permitted to dispose of any material at the convenience sites.**

Residential C&D accepted at convenience sites:

Residential lumber, sheet rock, plywood, carpet, padding, insulation, floor covering, etc.

C&D not accepted at convenience sites:

Block, brick, concrete, rock, tile, pallets or shingles of any portions.

These materials can go to the landfill for **free disposal if it is from the resident's home and the work is being done by the resident.** Large multi-loads from a resident will be directed to the main landfill for disposal, due to overfilling of the containers and holding up other residents from disposing of their waste.

Please contact the main landfill office at 704-732-9030 with any questions or visit [www.lincolncounty.org/solidwaste](http://www.lincolncounty.org/solidwaste) for more details.
